

Bob Springer's Profile: Coach, Editor & Publisher and Curator

Basketball has been very good to me, it gave me a college education, a career as a high school basketball coach and teacher that lasted for 30 years, 19 of which were as a head basketball coach in Houston, Texas.

I often wondered why our level of basketball was not appreciated across the Nation and more in the State. After a meeting with friends who were going to start what I thought was a basketball magazine. It turned out it was going to be a history book which was fine. So I then decided I would try to put together a State wide basketball magazine for all classes, including Boys & Girls.

Without any journalism background I edited and published the Bob Springer's Texas Basketball Magazine that was successful and available across the State & Nation on newsstands and news outlets for 24 years.

I have been a professional member of THSCA for 50 years, a lifetime member with TABC, a Texas Sports-writer member for 24 years, and a USBWA member for 16 years.

After collecting basketball memorabilia for the past 40 years I completed a dream of mine to open up a basketball museum. 10 years ago we moved to Carmine from Houston, Texas where after purchasing a building and remodeling it I opened the Texas Basketball Museum the only one in the State. I

have a massive collection of basketball memorabilia highlighted by the Texas High

School Basketball Hall of Fame and many displays of Hall of Fame honorees. About half of the memorabilia has been provided by our Texas Association of Basketball Coaches the other half plus, I have provided. It all makes for a good visit.
